This project was selected by the City Board of Aldermen to clean up vacant and dilapidated structures within the City limits. This is the second round of demolition with two houses to be taken down. Both lots will be used for new structures in the future. The City Board assessed the town with several vacant buildings and one business to demolish in the first round and when there were grant monies left, the City could do the last two structures that applied too late for the first round. This project was lead by the City's Mayor Dennis Fude and the City of Green City was the lead organization.
