Mr. and Mrs. Seldal have always had a big heart for beautiful flowers. Three years ago they decided to build a garden to display all of the different types of pretty flowers that they have grown to love of the years. Each year this garden has grown little by little with seven new beds added this year alone. They spend a lot of time in their garden showing "tender loving care" to all of the gorgeous flowers that have been planted over the years. This hobby which started out as a small pastime has turned into a part time job taking a number of hours each day to care for them by planting, weeding and water all them on an ongoing basis.
